

Tailored Lipids and Micronutrients

Patents. (asha-nutrition.com/patents)

At Asha Nutrition Sciences, we envision a world where people are healthy and vibrant and medical interventions are rare.

LipiLife is a product of the latest research from medical thought leaders in nutrition science and provides an essential balance of lipids, antioxidants, phytochemicals, vitamins, and other nutrients tailored by gender and existing diet. Currently offered for both men and women within the categories:

Vegetable Enthusiast, Seafood Enthusiast and Meat Enthusiast.

Research shows that tailored delivery of nutrients contained in LipiLife can help:

- Optimize hormones, metabolic pathways and gene expression
- Manage oxidation
- Stabilize immune system
- Naturally lower calorie consumption due to fat restriction and feelings of satiation

Try LipiLife at our upcoming Focus Group

Take an active role in improving your health and vitality. We seek enthusiastic men and women who are interested in health and wellness and want to learn about the latest research in nutrition science.

Enjoy free samples to last **3-4 weeks**

LipiLife nutrients are derived from natural sources and contain Omega-3,-6,-9, medium-chain saturated fatty acids, vitamin A,E, phytosterols, lignans, melatonin and many more...
